orem in one way or another. The second is that arguments for emergence assume a model of wholes built up out of smaller parts that, while intuitive, is controversial in the quantum mechanical context. I think these issues can be addressed, but at the cost of adding some caveats to the claim that quantum mechanics

entails emergence.

It covers the nature, origin and purpose of Man. It covers the nature and purpose of Earth. There is an imminent Change coming where traditional, rote Religion is fading away and a New Faith is growing and is examined in this book -- it is called a Quantum Faith as it synchs up with Quantum Physics and that synchs up with Eastern metaphysics. The new Indigos and Hubrids are already aware of the New Faith as it is part of their consciousness. That is why it is important to know about it.
