Reading is the complex cognitive process of decoding symbols to derive meaning. It is a form of language processing.. Success in this process is measured as reading comprehension. Reading is a means for

language acquisition, communication, and sharing information and ideas. The symbols are typically visual (written or printed) but may be tactile ( ). Like all languages, it is a complex ...

It is a responsibility we are failing to meet. According to statistics from the U.S. Department of Education, the gap in eighth-grade reading and math test scores between low-income students and their wealthier peers hasnâ€™t shrunk at all over the past 20 years. (The gap between poor and wealthier fourth-grade students narrowed during those two decades, but only by a tiny amount.)
