Human resources research papers pdf

Empirical Research on Human Resource Management as a Production of Ideology** The article argues that empirical research on Human Resource Management creates a one-sided, distorted image of the reality of work and thus generates ideology. Such an ideology legitimises HR practices and favours the interests of entrepreneurs and managers.

Empirical Research on Human Resource Management as a

demand for their services. Human resource practices are organizational tools that can be used to attract and retain the best brain in order to achieve organization objectives. In this scenario, this research examined the impact of certain HR practices on employee performance as case study of Telekom Malaysia. Research objective:
