

long term acute care pdf

NHSN is the HAI surveillance gold standard. The system (and its predecessors) started years ago helping a few hundred healthcare facilities; today, more than 17,000 healthcare facilities use NHSN as the cornerstone of their HAI elimination strategies. Specifically, facilities use NHSN to ...

Long-term Acute Care Hospitals/Facilities | NHSN | CDC

Long-term care (LTC) is a variety of services which help meet both the medical and non-medical needs of people with a chronic illness or disability who cannot care for themselves for long periods. Long term care is focused on individualized and coordinated services that promote independence, maximize patients' quality of life, and meet patients' needs over a period of time.

Long-term care - Wikipedia

This workgroup provides input to the Coordinating Committee on matters related to the selection and coordination of measures for post-acute care and long-term care (PAC/LTC) providers, including hospices, inpatient rehabilitation facilities, long-term care hospitals, skilled nursing facilities, and home health care. Long-Term Care Trends and Statistics The Need for Long-Term Care Continues to Grow. In 2011, the oldest Baby Boomers (defined by those born between 1946 and 1964) began celebrating their 65 th birthdays and each day through 2029, 10,000 more will cross that threshold nationwide. As this demographic trend plays out, there will be an increased demand for services providing care for the elderly.
