In biology, homeostasis is the state of steady internal physical and chemical conditions maintained by living systems. This dynamic state of equilibrium is the condition of optimal functioning for the organism and includes many variables, such as body temperature and fluid balance, being kept within certain pre-set limits (homeostatic range). Other variables include the pH of extracellular ...

In contrast to protein kinase C, which is activated and then rapidly downregulated by phorbol esters, $\hat{1}\pm$ 1-chimaerin is rapidly ubiquitinated and degraded under basal conditions, but is stabilized by C1 binding molecules such as 1,2-diacylglycerols or phorbol esters (Marland et al., 2011). Overexpression of a constitutively active Rac1 mutant causes phospholipase C, the enzyme that produces 1,2 ...

risks to public health. Furthermore, in 2003 EPA committed to revising the TCR "not only to consider updating the provisions about the frequency and location of monitoring, follow-up monitoring after total coliform-positive samples, and the basis of the MCL, but also to address the broader issue of whether the TCR could be revised to encompass "distribution system integrity."

Emotions are a ubiquitous aspect of interaction between groups. As described in Intergroup Emotions Theory (IET; Mackie, Devos, & Smith, 2000; Smith, 1993), intergroup emotions are emotions people feel on account of their membership in a group to which they belong and with which they identify. In this chapter, we first describe the foundational assumption of IET: that the experience of ...

To better understand what happens inside the clinical setting, this chapter looks outside. It reveals the diverse effects of culture and society on mental health, mental illness, and mental health services. This understanding is key to developing mental health services that are more responsive to the cultural and social contexts of racial and ethnic minorities.
