This is a list of notable chemical engineers, people who studied or practiced chemical engineering. The main list is those who achieved status in chemical engineering or a closely related field such as management or science. At the foot of the page is a list of people with chemical engineering qualifications who are notable for other reasons, such as actors, sportspeople and authors.

A chemical reactor is an enclosed volume in which a chemical reaction takes place. In chemical engineering, it is generally understood to be a process vessel used to carry out a chemical reaction, which is one of the classic unit operations in chemical process analysis. The design of a chemical reactor deals with multiple aspects of chemical engineering.

So, while diesel fuel contains slightly more carbon (2.68kg CO<sub>2</sub>/litre) than petrol (2.31kg CO<sub>2</sub>/litre), overall CO<sub>2</sub> emissions of a diesel car tend to be lower. In use, on average, this equates to around 200g CO<sub>2</sub>/km for petrol and 120g CO<sub>2</sub>/km for diesel. But even when governments were promoting diesel cars, we knew there were issues with toxic emissions (those immediately harmful to ...
