Social psychology is the scientific study of how people's thoughts, feelings and behaviors are influenced by the actual, imagined or implied presence of others. In this definition, scientific refers to the empirical investigation using the scientific method. The terms thoughts, feelings and behavior refer to psychological variables that can be measured in humans.

SEE: See mistakes as learning opportunities and see yourself not as a victim. One of my former college students shared this: “I have always seen every mistake I make as a learning opportunity in my life which provides me with less stress over the situation as well as allows my future choices to be based on more information, and gives me more options for my ultimate success.”
