There are four basic schedules of reinforcement based on these two distinctions: Fixed-ratio schedules involve reinforcement after a fixed number of responses after every tenth response, for example. In this case nine non-reinforced responses would be followed by one reinforced response. If you had a job in which you were paid for every twenty pieces of work that you turned out, you would be ...

Constructivism is a philosophical viewpoint about the nature of knowledge. Therefore, it represents an epistemological stance.. There are many flavors of constructivism, but one prominent theorist is Jean Piaget, who focused on how humans make meaning in relation to the interaction between their experiences and their ideas. He considered himself to be a genetic epistemologist, meaning he was ...
