Ethics Statement. Genetic studies of human history shed light on how ancient and present-day people are biologically related, and it is therefore important to be attentive not just to scientific issues but also to perspectives of indigenous communities when carrying out this work (Bardill et al., 2018). We took a case-by-case approach in each region we studied.

Reconstructing the Deep Population History of Central and

1. Introduction. Maca (*Lepidium meyenii* Walpers or *Lepidium peruvianum* Chacón), an annual herbaceous plant of the Brassicaceae family, is native to the central Andes. It is the only reported species of the genus *Lepidium* displaying a fused hypocotyl and taproot forming an underground storage organ which is well adapted to the harsh climate of the high-altitude central Andean plateau.

Bioactive maca (*Lepidium meyenii*) alkaloids are a result

Open Access journals are the major source of knowledge for young and aspiring generations who are keen in pursuing a career in sciences. This system provides easy access to networks of scientific journals. Authors that contribute their scholarly works to Open Access journals gain remarkable reputation as the research scholars explore these works extensively.

Free Access to Scientific Journals - Open Access Journals

Many of the most pressing policy challenges for the APS involve dealing with very complex problems. These problems share a range of characteristicsâ€they go beyond the capacity of any one organisation to understand and respond to, and there is often disagreement about the causes of the problems and the best way to tackle them. These complex policy problems are sometimes called â€wicked ...

Tackling wicked problems : A public policy perspective

The JordÃ -Schularick-Taylor Macrohistory Database is the result of an extensive data collection effort over several years. In one place it brings together macroeconomic data that previously had been dispersed across a variety of sources. On this website we provide convenient no-cost open access under a license to the most extensive long-run macro-financial dataset to date.
