I teach twice a week and my students range in age from two and a half years old at the start of the year to pushing four years old by the end. That is a lot of development in one year, and that is why I find this age so much fun to teach. My school follows monthly themes but one theme that we teach ...

The Twin Towers were destroyed faster than physics can explain by a free fall speed "collapse."; They underwent mid-air pulverization (dustification) and were turned to dust before they hit the ground. The protective bathtub was not significantly damaged by the destruction of the Twin Towers.; The rail lines, the tunnels and most of the rail cars had only light damage, if any.
