The economy of Mexico is the 15th largest in the world in nominal terms and the 11th largest by purchasing power parity, according to the International Monetary Fund. Since the 1994 crisis, administrations have improved the country's macroeconomic fundamentals. Mexico was not significantly influenced by the 2002 South American crisis, and maintained positive, although low, rates of growth after ...

The economy of South Korea is the 4th largest in Asia and the 11th largest in the world. It is a mixed economy dominated by family-owned conglomerates called chaebols; however, the dominance of the chaebol is unlikely to last and engenders risk of slowing down the transformation of Korean economy for the benefit of future generations. South Korea is known for its spectacular rise from one of ...
